

PHOSPHATE LICKS

VOERMOL RUMEVITE 12P

Class: Phosphate and Trace Mineral Concentrate for Ruminants

VOERMOL RUMEVITE 12P is a mineral lick concentrate for the home mixing of a mineral lick.

COMPOSITION OF VOERMOL RUMEVITE 12P				
REG NO V11994 (Act 36/1947) N-FF 1045				
		(g/kg)	(mg/kg)	
Moisture	(max)	140	Manganese	1 200
Calcium	(max)	240	Copper	300
Phosphorus	(min)	120	Cobalt	6
			Iron	1 500
			Iodine	30
			Zinc	1 200
			Selenium	6
			Vitamin A (IU/kg)	80 000

Mix equal parts of **Voermol Rumevite 12P** and salt and feed *ad lib.* in suitable lick troughs. **Voermol Rumevite 12P** is fed to animals on green pastures in order to increase production. It can be fed continuously to dairy cows. **Voermol Rumevite 12P** is suitable for all types of ruminant game. The final composition and recommendations of the mixture are the same as for **Voermol Rumevite 6P**.

COMPOSITION OF THE MIXTURE				
		(g/kg)	(mg/kg)	
Calcium	(max)	120	Manganese	600
Phosphorus	(min)	60	Copper	150
			Cobalt	3
			Iron	750
			Iodine	15
			Zinc	600
			Selenium	3

Packaging – 50 kg

RECOMMENDED INTAKE	(g/animal/day)
Cattle:	100 – 200
Sheep and goats:	17 – 34

TRANSITIONAL LICK

The provision of a transitional lick during the transition from green to dry veld will promote the production and reproduction of cows, because it prevents the loss of body mass and condition. After the first frost the transitional lick is replaced with a maintenance or protein lick.

VOERMOL

Examples of transitional licks for beef cattle during the transition from green to dry veld.

MIXING INSTRUCTIONS (kg)			
	Transitional lick (kg)		
	1	2	3
Voermol Rumevite 12P	50	100	100
Voermol Dundee Lick Concentrate	50	–	–
Voermol Premix 450	–	200	–
Voermol Highveld Lick	–	–	200
Salt	50	150	150
Total	150	450	450
COMPOSITION (g/kg)			
Crude Protein (min)	273	200	178
Urea (max)	90.7	58.3	55.5
Calcium (max)	90	58.7	67.5
Phosphorus (min)	40	27.7	32
% Protein derived from NPN	95.2	83.7	89.5
INTAKE: (g/animal/day)	200 – 300	250 – 400	250 – 400

OTHER: Use **Voermol Rumevite 12P** as an ingredient in other feed mixes to supply phosphorus and trace minerals.
